STATE OF NEW HAMPSHIRE

1990 TOWN WARRANT

TOWN OF STRATFORD, N.H.

To the inhabitants of said Town of Stratford, in the County of Còòs in said State of New Hampshire, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Town of Stratford on Tuesday, the Thirteenth Day of March next at ten o'clock in the forenoon and will remain open until six o'clock in the afternoon for the receipt of your ballots under the Non-Partisan Ballot System.

1. To see if the Town will vote to choose by Non-Partisan Ballot the following Town Officers:

One Selectman for Three Years  
One Moderator for Two Years  
One Town Clerk for One Year  
One Treasurer for One Year  
One Trustee of Trust Funds for Three Years  
One Supervisor of the Checklist for Six Years

2. To see if the Town will vote to instruct the Board of Selectmen to appoint all other town officers as required by law, not elected by Non-Partisan Ballot.
3. To see if the Town will vote to accept the Budget and to raise and appropriate money for the same, and if not, to see what sum of money the town will raise and appropriate to defray the town charges for the ensuing year.
4. To see if the Town will vote to instruct the Board of Selectmen and the Town Treasurer to borrow money in order to defray town charges in anticipation of taxes for the ensuing year.
5. To see if the Town will vote to authorize the Board of Selectmen to apply for, accept, and expend without further action of the Town Meeting, money from the State, Federal, or other governmental unit or a private source which may become available during the fiscal year. (RSA 31:95b)
6. To see if the Town will vote to instruct the Board of Selectmen to hire a private auditing firm of accountants to audit the Town Books and to make an appropriation of \$5,200.00 to cover the costs of the same.

7. To see if the Town will vote to raise and appropriate the sum of \$6,000.00 for the purpose of allowing the Planning Board to up-date and amend the town Master Plan as required by RSA 674:1.
8. To see if the Town will vote to raise and appropriate the sum of \$26,000.00 for the preparation of new tax maps for the Town. These maps will include soils, overlays, and precise information regarding parcels of lands and streets. This can also be paid for over a period of three years.
9. To see if the Town will vote to raise and appropriate the sum of \$10,000.00 from the Sewer Fund to establish a Capital Reserve Account for the purpose of maintenance, repairs and/or bed rehabilitation of the Sewerage Facilities System.
10. To see if the Town will vote to raise and appropriate the sum of \$5,000.00 to be placed in the Capital Reserve Account already established for the future revaluation of the Town.
11. To see if the Town will vote to raise and appropriate the sum of \$8,000.00 to be placed in the existing capital reserve account for the purpose of repair and/or replacements of equipment and/or trucks for the North Stratford Volunteer Fire Department.
12. To see if the Town will vote to raise and appropriate the sum of \$35,000.00 for the Steps I & II for preparations for the closure of the Stratford Stump Dump.
13. To see if the Town will vote to raise and appropriate a sum of money to be allocated for the repair and maintenance of the Stratford Hollow Park. (By Petition)
14. To see if the Town will vote to raise and appropriate the sum of \$2,000.00 for the support and expenses of a July 4th celebration in Town.
15. To see if the Town will vote to raise and appropriate the sum of \$                    for landfill fees and \$                    garbage pick up fees from Ray O. Parker & Son, Inc. of Lyndonville, Vt.

16. To see if the Town will vote to raise and appropriate the sum of \$ 8,000.00 for the completion of Step III of the Corrosion Control for the Municipal Water System.
17. To see if the Town will vote to repeal its former floodplain management ordinance and adopt the new ordinance as printed in this report in its place. This action would fulfill all of the National Flood Insurance Ordinance Requirements as amended to date. This ordinance is a requirement for the towns continued participation in the National Flood Insurance Program.
18. To see if the Town will vote to raise and appropriate the sum of \$1,170.00 for the support of Tri-County Community Action Outreach Program.
19. To see if the Town will vote to raise and appropriate the sum of \$839.74 for the 1990 dues for membership to the North Country Council, Inc.
20. To see if the Town will vote to raise and appropriate the sum of \$1,200.00 as an annual contribution for the Town of Northumberland's Ambulance Service for the year 1990.
21. To see if the Town will vote to raise and appropriate the sum of \$375.00 for the maintenance and service of the Ambulance District A-1.
22. To see if the Town will vote to raise and appropriate the sum of \$1,000.00 for the Upper Connecticut Valley Hospital to help defray the costs of providing emergency services.
23. To see if the Town will vote to raise and appropriate the sum of \$750.00 for Community Mental Health and \$200.00 for Developmental Services and the Vershire Center.
24. To see if the Town will vote to raise and appropriate the sum of \$3,500.00 for the Northern Còos Community Health Association for operating expenses and matching funds.
25. To see if the Town will vote to raise and appropriate the sum of \$.30 per capita for a donation to the American Red Cross.
26. To see if the Town will vote to raise and appropriate the sum of \$864.00 to be paid to the Center for New Beginnings. This amount represents 40% of the fees which the Center was unable to collect for services rendered to four residents of the community.

27. "Shall we adopt the provisions of RSA 72:28, V & VI for an optional veterans' exemption and an expanded qualifying war service for veterans' seeking the exemption? The optional veterans' exemption is \$100, rather than \$50."  
This article is to be voted on by ballot.
28. To see if the Town will vote to raise and appropriate the amount of \$50,000.00 for the purpose of purchasing a replacement ambulance for the Town.
29. To see if the Town will vote to raise and appropriate the sum of \$200.00 towards the N.H. Government Finance Officers Association.
30. To see if the Town will vote to instruct the Selectmen to continue a long term lease agreement with the rental of the Quonset Hut.
31. To see if the Town will vote to establish a separate fund for the Water Dept.
32. To hear reports of agents, officers, and committees heretofore chosen and to take any action on the same.
33. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 19th day of February in the year of our Lord, Nineteen Hundred and Ninety. (1990)

# TOWN MEETING NOTES

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

TOWN OF STRATFORD  
FLOOD PLAIN ORDINANCE

The following meets the minimum requirements of Section 60.3 (d) of the National Flood Insurance Program Regulations. Also, if adopted pursuant to the Authority of RSA 675:3 shall be known as the Town of Stratford's Floodplain Development Ordinance.

The following regulations in this ordinance shall apply to all lands designated as special flood hazard areas by the Federal Emergency Mangement Agency (FEMA) in its "Flood Insurance Study for the Town of Stratford NH" together with the associated Flood Insurance Rate Maps, and Flood Boundary & Floodway Maps of the Town of Stratford which are declated to be a part of this ordinance and are hereby incorporated by reference. The maps dated April 18, 1983 are declared to be part of this ordinance.

Item 1 Definition of Terms: The following definitions shall apply only to this Floodplain Development Ordinance and shall not be affected by, the provisions of any other ordinance of the Town of Stratford.

"Area of Shallow Flooding: Means a designated AO, AH, or VO zone on the Flood Insurance Rate Map (FIRM) with a one-percent or greater annual possibility of flooding to an average depth of one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

"Area of Special Flood Hazard": Is the land in the floodplain within the Town of Stratford subject to a one-percent or greater possibility of flooding in any given year. The area designated as Zone A on the FHBM and is designated on the FIRM as zones A, AO, AH, Al-Al-30, A99, V1-30, V, B, C, D, Al-30 and AE.

"Base Flood": Means the flood having a one-percent possibility of being equalled or exceeded in any given year.

"Basement": Means any area of a building having its floor subgrade on all sides.

"Building": "See Structure".

"Breakaway Wall": Means any man-made wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces without causing damage to the elevated portion of the building or supporting foundation.

"Development": Means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation, or drilling operation.

"FEMA": Means the Federal Emergency Management Agency.

"Flood" or "Floodway" means a general and temporary condition of partial or complete inundation of normally dry land areas from:

- (1) the overflow of inland or tidal waters
- (2) the unusual & rapid accumulation or runoff or surface waters from any source.

"Flood Boundary & Floodway Map:" (Floodway Map) is an official map of the Town of Stratford, on which FEMA has delineated the "Regulatory Floodway". This map should not be used to determine the correct flood hazard zone or base flood elevation, the Flood Insurance Rate Map (FIRM) will be used to make determinations of flood hazard zones and base flood elevations.

"Flood Elevation Study": Means an examination, evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations or an examination, evaluation and determination of mudslide (i.e., mudflor) and/or flood-related erosion hazards.

"Flood Hazard Boundary Map" (FHBM) Means an official map of a community, issued by the Federal Emergency Management Agency, where the boundaries of the flood mudslide (i.e., mudflor) related erosion areas having special hazards have been designated as Zone A.

"Flood Insurance Rate Map": (FIRM) Means an official map incorporated with this ordinance, on which FEMA has delineated both the special flood hazard areas and the risk premium zones applicable to the Town of Stratford.

"Flood Insurance Study" - See "Flood Elevation Study"

"Floodplain or Flood-prone Area: Means any land area susceptible to being inundated by water from any source (see definition of "Flooding").

"Flood Proofing": Means any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and/or sanitation facilities, structures and their contents.

"Floodway" - See "Regulatory Floodway"

"Functionally Dependent Use": Means a use which cannot perform its intended purpose unless it is located or carried out in close proximity of water. The term includes only docking and port facilities that are necessary for the loading/unloading of cargo or passengers, and ship building/repair facilities but does not include long-term storage or related manufacturing facilities.

"Highest Adjacent Grade": Means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

"Historic Structure": Means any structure that is:

- (a) Listed individually in the National Register of Historic Places (a listing maintained by the Dept. of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing of the National Register;
- (b) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
- (c) Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or
- (d) Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:
  - 1. By an approved state program as determined by the Secretary of the Interior, or
  - 2. Directly by the Secretary of the Interior in states without approved programs.

"Lowest Floor": Means the lowest flood of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such an enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of this ordinance.

"Manufactures Home": Means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes, the term "manufactures home" includes park trailers, travel trailers, and other similar vehicles placed on site for greater than 180 days.

"Mean Sea Level": Means the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a communities Flood Insurance Rate Map are referenced.

"100-year Flood" - See "Base Flood"

"Regulatory Floodway": Means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without increasing the water surface elevation. These areas are designated as floodways on the Flood Boundary and Floodway Map.

"Riverine": Means relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.

"Special Flood Hazard Area": Means an area having flood, mudslide, and/or flood-related erosion hazards, and shown on an FHBM or FIRM as Zone A, AO, A1-30, A1-A30, AE, A99, AH, V1-30, B, C, D, V, or E. (See - "Area of Special Flood Hazard").

"Structure": Means for floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

"Start of Construction" includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of a slab or footings, the installation of piles, the construction

of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent Construction does not include land preparation such as clearing grading and filling; nor does it include land preparation, such as clearing, grading, and filling; nor does it include the installation of streets, and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages, or sheds not occupied as dwelling units or not part of the main structure.

"Substantial Damage": Means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 per cent of the market value of the structure before the damage occurred.

"Substantial Improvement": Means any combination of repairs, reconstruction, alteration, or improvements to a structure in which the cumulative cost equals or exceeds fifty (50%) per cent of the market value of the structure. The market value of the structure should equal: (1) The appraised value prior to the start of the initial repair or improvement, or (2) in the case of damage, the value of the structure prior to the damage occurring. For the purposes of this definition, "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. This term includes structures which have incurred substantial damage, regardless of actual repair work performed. The term does not, however, include any project for improvement of a structure required to comply with existing health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions or any alteration of a "historic structure" provided that the alteration will not preclude the structure's continued designation as a "historic structure".

"Water Surface Elevation": Means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, (or other datum, where specified) of floods of various magnitudes and frequencies in the floodplains.

## Item II.

All proposed development in any special flood hazard areas shall require a permit from the Town of Stratford and Wetlands Board of the N.H. Environmental Services.

## Item III.

The Board of Selectmen shall review all building permit applications for new construction or substantial improvements or repairs to existing buildings to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is located in a special flood hazard area, all new construction or substantial improvements shall:

- (1) Be designed (or modified) and adequately anchored to prevent floatation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy,
- (2) Be constructed with methods and practices that minimize flood damages,
- (3) Be constructed with materials resistant to flood damage,
- (4) Be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment, and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding,
- (5) The pile or column foundation and structure attached thereto is anchored to resist floatation, collapse, and lateral movement due to the effects of wind and water loads acting simultaneously on all building components. Water loading values used shall be those associated with the base flood. Wind loading values used shall be those required by applicable state and local building standards.

Item IV:

Where new or replacement water and sewer systems (including on-site systems) are proposed in a special flood hazard area the applicant shall provide the Board of Selectmen with assurance that these systems will be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems will be located to avoid impairment to them or contamination from them during periods of flooding.

Item V:

For all new or substantially improved structures located in all zones pertinent and referred to by and included in the Town of Stratford's Flood Plain Maps of April 18, 1983, the applicant shall furnish the following information to the Board of Selectmen:

- (a) The as-built elevation (in relation to NGVD) of the lowest floor (including basement) and include whether or not such structures contain a basement,
- (b) if the structure has been floodproofed, the as-built elevation (in relation to NGVD) to which the structure was floodproofed,
- (c) any certification of floodproofing.

The Board of Selectmen shall maintain for public inspection, and shall furnish information upon request.

Item VI:

The Board of Selectmen shall not grant a building permit until the applicant certifies that all necessary permits have been received from those governmental agencies from which approval is required by federal or state law, including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334.

Item VII:

In riverine situations, prior to the alteration or relocation of a watercourse, the applicant for such authorization shall notify the Wetlands Board of the N.H. Environmental Services Dept. and submit copies of such notification to the Board of Selectmen in addition to the copies required by the RSA 483-A:1-b. Further, the applicant shall be required to submit copies of said notification to those adjacent communities as determined by the Board of Selectmen, including notice(s)

of all scheduled hearings before the Wetlands Board.

The applicant shall submit to the Board of Selectmen, certification provided by a registered professional engineer, assuring that the flood carrying capacity of an altered or relocated watercourse can and will be maintained.

Along watercourses with a designated Regulatory Floodway no encroachments, including fill, new construction, substantial improvements, and other development are allowed with the floodway that would result in any increase in flood levels within the community during the base flood discharge. In Zone A the Board of Selectmen shall obtain, review, and reasonably utilize any floodway data available from Federal, State or other sources as criteria for requiring that development meet the floodway requirements of this section.

Along watercourses that have not had a Regulatory Floodway designated, no new construction, substantial improvements, or other development (including fill) shall be permitted within zones A1-30, A1-A30, A & B and AE on the FIRM, unless it is demonstrated by the applicant that the cumulative effect of the proposed development, when combined with all existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community.

#### Item VIII:

1. In special flood hazard areas, the Board of Selectmen shall determine the 100 year flood elevation in the following order of precedence according to the data available:

- a. In zones A1-30, AH, AE, V1-30, and VE and B refer to the elevation data provided in the community's Flood Insurance Study and accompanying FIRM or FHBM.
- b. In unnumbered A zones the Board of Selectmen shall obtain, review and reasonably utilize any 100 year flood elevation data available from any federal, state or other source including data submitted for development proposals submitted to the community (i.e. sub-divisions, site approvals).
- c. In zone A0 the flood elevation is determined by adding the elevation of the highest adjacent grade to the depth number specified on the FIRM at least two (2) feet.

2. The Board of Selectmen's 100 year flood elevation determination will be used as criteria for requiring in Zones A, Al-30, AE, AH, A, B, & C that:

- a. all new construction or substantial improvement of residential structures have the lowest floor (including basement) elevated to or above the 100 year flood elevation;
- b. that all new construction or substantial improvements of non-residential structures have the lowest flood (including basement) elevated to or above the 100 year flood levels; or together with attendant utility and sanitary facilities, shall:
  1. be floodproofed so that below the 100 year flood elevation the structure is watertight with walls substantially impermeable to the passage of water;
  2. have structural components capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy; and
  3. be certified by a registered professional engineer or architect that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of this section;
  4. all manufactured homes to be placed or substantially improved within special flood hazard areas shall be elevated on a permanent foundation such that the lowest floor of the manufactured home is at or above the base flood level; and be securely anchored to resist floatation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or farm ties to ground anchors. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces. (See Sept. 29, 1989 Federal Register for Regulation change).
  5. for all new construction and substantial improvements, fully enclosed areas below the lowest floor that are subject to flooding are permitted provided they meet the following requirements: (a) the enclosed area is unfinished or flood resistant, usable solely for the parking of vehicles, building access or storage; (b) the area

is not a basement; (c) shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwater. Designs for meeting this requirement must be either certified by a registered professional engineer or architect or must meet or exceed the following minimum criteria: A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, or other coverings or devices provided that they permit the automatic entry and exit of floodwater.

6. proposed structures to be located on slopes in special flood hazard areas, zones AH and AO shall include adequate drainage paths to guide flood waters around any way from the proposed structures.

#### Item IX Variances & Appeals:

1. Any order, requirement, decision or determination of the Board of Selectmen made under this ordinance may be appealed to the Zoning Board of Adjustment as set forth in RSA 676:5; or State Appeals Board or the Federal Emergency Management Agency.

2. If the applicant, upon appeal, requests a variance as authorized by RSA 674:33, I (b), the applicant shall have the burden of showing in addition to the usual variance standards under state law:

- (a) that the variance will not result in increased flood heights, additional threats to public safety, or extraordinary public expense,
- (b) that if the requested variance is for activity within a designated regulatory floodway, no increase in flood levels during the base flood discharge will result,
- (c) that the variance is the necessary, considering the flood hazard, to afford relief.

3. The Zoning Board of Adjustment or the Board

of Selectmen shall notify the applicant in writing that: (i) the issuance of a variance to construct below the base flood level will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100.00 of insurance coverage and (ii) such construction below the base flood level increases risks to life and property. Such notification shall be maintained with a record of all variance actions.

4. The community shall (1) maintain a record of all variance actions including their justification for their issuance, and (11) report such variances issued in its annual or biennial report submitted to FEMA's Federal Insurance Administrator.

Independent Auditor's Report on Financial Presentation

To the Members of the Board of Selectmen  
Town of Stratford  
Stratford, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Stratford and the combining and individual fund financial statements of the Town as of and for the year ended December 31, 1989, as listed in the table of contents. These financial statements are the responsibility of the Town's Management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the general fixed asset account group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Stratford at December 31, 1989, and the results of its operations and the changes in financial position of its nonexpendable trust funds for the year then ended, in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Town at December 31, 1989,

and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole and on the combining and individual fund financial statements. The accompanying financial information listed as schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Town. Such information has been subjected to the auditing procedures applied in the audit of the general purpose, combining and individual fund financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements of each of the respective individual funds and account groups, taken as a whole.

## SUMMARY OF LONG TERM DEBT

### General Obligation Debt

The following is a summary of general obligation debt transactions of the Town for the fiscal year ended December 31, 1989.

General Obligation Debt Payable Jan. 1, 1989	\$220,000
General Obligation Debt Retired	<u>35,000</u>
General Obligation Debt Payable Dec. 31, 1989	\$185,000

General obligation debt payable at December 31, 1989 is comprised of the following individual issue:

1985 Sewer Bonds payable in annual installments of \$35,000 through November 15, 1990 and \$30,000 through November 15, 1995; interest at variable rates averaging 7.15% \$185,000=

The annual requirements to Amortize General Obligation debt outstanding as of December 31, 1989, including interest payments, are as follows:

#### Annual Requirements To Amortize General Debt

Fiscal Year Ending December 31	Principal	Interest	Total
1990	\$35,000	\$13,600	\$48,600
1991	30,000	11,220	41,220
1992	30,000	9,090	39,090
1993	30,000	6,900	36,900
1994	30,000	4,650	34,650
1995	<u>30,000</u>	<u>2,340</u>	<u>32,340</u>
TOTALS	\$185,000	\$47,800	\$232,800

All debt is general obligation debt of the Town, which is backed by its full faith and credit.

According to State Law, Town borrowing (exclusive of Water and Sewer Bonds or Notes properly approved under the provision of the Municipal Finance Act) may not exceed one and seventy-five hundredths percent (1.75%) of the valuation of property based upon the applicable last locally assessed valuation of the municipality as last equalized by the Commissioner of Revenue Administration. At December 31, 1989, the Town of Stratford is using an equalized value of \$21,673,537 and a legal debt margin of \$379,287.

STRATFORD POLICE DEPT.

To The Honorable Board of Selectmen:

I want to express my appreciation to the Selectmen and the residents of the Town of Stratford for their support of and cooperation with the Stratford Police Department. Knowing we have your backing makes our job easier.

Again this year, our accident rate continued to increase. I want to ask each of you to exercise a little extra care when driving. If we work together, we can reduce our accident rate next year and make out Town a safer place for everyone.

The Town's police officers completed classroom training required by the N.H. Police Standards and Training Council. Because of budget constraints, many of the officers volunteered their own time to attend the training. I am sure we all appreciate their dedication in doing so. Should you need an officer, call any of the following numbers, in the order listed: Stratford Police Dept. 636-2353; John White 636-2573; Colin Noyes 922-3832; Helen Williams 788-4072; or Tim Gould 636-2864.

During the past year, the officers of our part-time dept. continued to be on call 24 hrs. a day. Following is a list of complaints received by the dept. when we were "ON CALL" during the week rather than when we were on duty. This list does NOT include numerous calls for legal advice or from individuals just wanting to talk with a police officer.

<u>Nature of Complaint</u>	<u># of Calls</u>	<u>Nature of Complaint</u>	<u># of Calls</u>
Alarm	6	Drug Raid	1
Abandoned Vehicles	2	DWI	3

CENTER FOR NEW BEGINNINGS

P.O. Box 935  
Littleton, NH 03561

An organization located in Littleton and which provides comprehensive treatment for victims of abuse who reside in the North Country. As a non-profit organization the CNB receives support from charitable funds and individuals. During 1989 eight residents of N.Stratford received clinical treatment and counseling at the center. Of this number 4 were unable to pay for their care at all or only paid a minimum fee. Clients at the Center are generally in therapy for six to eighteen months. Statistically speaking, the clients in 1989 received an average of twelve hrs. of counseling services. The value of that level of service is \$540. The amount requested in the warrant represent 40% of the fees that the center was unable to collect for the services rendered from four residents.

Louis Babin  
Chairman, Board of Trustees

49

NORTHERN COOS COMMUNITY HEALTH ASSOCIATION

P.O. Box 37

Colebrook, NH 03576

603-237-8083

Gentlemen:

We respectfully request that you approve the insertion of an article in support of NCCHA in the warrant of March Town Meeting. This year, based on population statistics, and an increase in visits provided to the Town of Stratford of 40% we are suggesting an appropriation of \$3500.

Our agency provides many community based health services, such as skilled nursing, homemaking, home health aide and therapy services to convalescing individuals at home. Medical equipment is available to area residents at no charge. Blood pressure screenings are held monthly. Our Maternal and Child Health Program runs a monthly Well Child Clinic, and a dental clinic twice yearly. This year, we held a Hearing and Vision Clinic for children enrolled in the Well Child Clinic; and we hope to conduct these periodically in the future. We also rent out infant and toddler car seats to area residents.

Homemaker/Home Health Aid Services, in particular are of great importance in this area, providing needed assistance to an ever-increasing elderly population. These services, however, are generally not covered by Medicare or any other insurances. We rely on state and federal grant monies, which cover only a portion of the cost to provide these services. Although there is a growing need for Homemaker and Home Health Aid services, the funding available has not increased. We depend on town appropriations and fund raising efforts to help cover costs for these and other unreimbursable services.

We thank you for your consideration of our appropriation request. If you have any questions, please feel free to call.

Sincerely,

Linda Ward, Business Administrator/Director

DISTRICT A-1

AMBULANCE

Board of Selectmen  
Town of Stratford  
N. Stratford, NH 03590

Gentlemen:

The Ambulance District A-1 in the past fiscal year (October 1, 1988 through September 30, 1989), went on 12 calls. During that year, the hospital paid \$864 to the ambulance attendants, provided \$383 of supplies and misc. expense, paid \$180 of maintenance expense, \$826 for insurance and \$10 for licensing. We hope that the hospital's commitment to the ambulance is evident in the figures as well as the commitment of the volunteers who provide the service. In 1989, there were eight licensed ambulance attendants and there are currently two enrolled in the EMT course, who upon completion, will be able to assist in the volunteer service provided. Although the attendants are paid when they are on actual ambulance runs, the study hours, recertification and update hours (which are considerable) are done voluntarily. Our sincere thanks to all of you for your assistance in this matter.

Sincerely,  
Bonita Brousseau, Chairman  
Ambulance District A-1

---

---

UPPER CONNECTICUT VALLEY MENTAL HEALTH SERVICE  
34 Colby St.  
Colebrook, NH 03576  
(603) 237-4955

We appreciate the financial support Stratford has given toward helping UCVMH and Developmental Services to provide a consistent, locally based program of services.

We would like to thank you once again for your help with Stratford's participation in maintaining these services.

Julie Riffon, ACSW  
Area Director

## NORTH COUNTRY COUNCIL, INC. ANNUAL REPORT

The year 1989 marked the North Country Council's seventeenth year of successful operation. As chartered under NH RSA 36:45, the Council provides non-profit local and regional planning assistance to member municipalities. In addition to general planning services, the Council offers its constituents specialty services in cultural resource management, solid waste management and transportation. The four standing Council committees, Economic Development, Housing, Land Use and Transportation, actively direct the Council's policies in these areas.

In STRATFORD, the Council met with the Planning Board to discuss the preparation of a Master Plan. The Council met with the Board of Selectmen to discuss a Community Development Block Grant housing grant and local flooding problems. In addition, the Council met with town officials to discuss sub-division regulations and the landfill proposal. Through the year, the Council organized meetings of the Upper Connecticut Valley Solid Waste District and assisted the district in evaluating recycling and waste disposal options. The Council also prepared the district's Solid Waste Management Plan, which evaluates the future of existing disposal options for each community.

Community Planning challenges dominated the Council's 1989 agenda. Changing state mandates and furthered residential and commercial growth busied local planning and zoning boards throughout the year. The Council assisted these boards in preparing for the challenges through regional workshops, technical bulletins and newsletters and as-needed assistance on technical and specific issues. The Council co-sponsored the popular Municipal Law Lecture Series which addressed new case law, grandfathering and the revised excavation statute. The Council also assisted numerous towns in revising zoning ordinances, sub-division regulations and site plan review regulations, thereby updating these regulations to better meet and manage the new challenges.

The Council's 1989 work program continued to promote community development projects, as well. Managing close to two million dollars in Community Development Block Grant monies, the Council administers programs yet others support sewer projects, day care development, and municipal water supply projects.

In Summary, it is important to understand that the Council is organized to provide these valuable services for the benefit of our local town governments.

AMERICAN RED CROSS

Greater White Mt. Chapter  
21 Lyford St.  
Laconia, NH 03246  
603-524-5414  
Berlin Branch  
603-752-3500

Dear Selectmen:

The Board of Directors of the Greater White Mt. Chapter of the American Red Cross respectfully requests your consideration for an appropriation in your 1990 Annual Town Budget for financial support of local American Red Cross Services.

The territory covered by the Greater White Mt. Chapter has grown considerably during the last year. Enclosed you will find a copy of our 1989 annual report which lists all the towns, grants, and territories serviced by this chapter of the Red Cross. Also in the report is a history of the American Red Cross, our local chapter history, as well as all the services we provide to the communities in the jurisdiction of the Greater White Mt. Chapter.

It is our annual goal to raise \$30,000 for capital expansion/improvements and reequiment maintenance and purchases. In 1990, we can meet this goal by receiving an appropriation of \$.30 per resident from the communities we serve. We ask this appropriation be restricted to the above mentioned projects.

We would be pleased to come before you to more fully discuss this request and to respond to any questions that you might have with reference to the American Red Cross. Your assistance in presenting our request through the proper process in your town will be greatly appreciated.

Sincerely,

Denise Beauparlant  
Executive Director

## NH Government Finance Officers Association

The NH Government Finance Officers Association and the Dept. of Revenue Administration are cooperating to develop and public a "Financial Policies and Procedures Manual" for all NH Municipalities.

The committee is making significant progress on the development of this manual. Proposals for a project manager have been reviewed and the firm of Boyer, Bennett & Shaw of Boston, Mass. have been selected to work with the committee to research, write, and public the manual. The NHGFOA executive board voted on Dec. 1, 1989 to authorize executing the contract. The contract was signed the same day and work on the first two segments of the manual will commence immediately.

Twenty-five communities have expressed an interest in being "PILOT" communities and will be assisting in reviewing and also suggesting changing in drafts of the manual. 52 towns have made contributions to the project. To date, we have collected \$15,766.67 in cash and have pledges for \$15,700. We need your assistance to fully fund the project.

Hoyt Haney  
Treasurer, NHGFOA

SCHOOL WARRANT  
STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of Stratford,  
qualified to vote in district affairs:

You are hereby notified to meet in the Stratford Town  
Hall in said district on Tuesday, March 13, 1990 at 10:00  
o'clock in the forenoon until 6:00 o'clock in the evening  
for the reception of your ballots under the non-partisan  
ballot system.

1. To choose by non-partisan ballot the following  
district officers for the ensuing year: a moderator,  
a district clerk, a district treasurer, one member  
of the board for the ensuing three years.

Given under our hands at Stratford this 23rd day of  
February, 1990.

SCHOOL BOARD

SCHOOL WARRANT  
STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of Stratford qualified to vote in district affairs:

You are hereby notified to meet in the Stratford Public School Gymnasium in said district on Monday, March 12, 1990, at 7:30 in the evening to act upon the subjects hereinafter mentioned.

1. To hear reports of agents, auditors, committees of officers heretofore chosen and pass any vote relating thereto.
2. To see if the district will vote to accept the provisions of the Federal and State School Lunch Program and to appropriate such funds as may be made available to the district under said program. Further, to see if the district will authorize the School Board to make application for such funds and to expend the same for such programs.
3. To see if the district will authorize the School Board to make application for, to receive and expend in the name of the district such advances, grants-in-aid, or other funds for the educational purposes as may now or hereafter be forthcoming from the State, Federal or other governmental unit or from private sources which become available during the fiscal year.
4. To see if the district will vote to raise and appropriate the sum of \$42,144.00 as a supplemental appropriation to the 1989-1990 appropriation for the purpose of meeting the expense for payment of salaries and benefits under the terms of a collective bargaining agreement for the 1989-1990 fiscal year.
5. To see if the district will vote to raise and appropriate the sum of (\$74,786.00) Seventy-Four Thousand Seven Hundred Eighty Six dollars for the payment of salaries and benefits under the terms of a collective bargaining agreement for the 1990-1991 fiscal year.
6. To see if the district will vote to raise and appropriate the sum of (\$150,000.00) One Hundred Fifty Thousand dollars to be put into the established Capital Reserve Fund, established by the school district meeting vote in 1979, for major reconstruction and repairs to the Stratford Public School and to designate the School Board as agents authorized to make expenditures from the Capital Reserve Fund.
7. To see if the district will vote to approve the withdrawal of up to Fifty Thousand dollars (\$50,000.00) from the Capital Reserve Fund established by the school district meeting vote in 1979 for major reconstruction and repairs to be used for repairs to the school building and to designate the School Board as agents to expend said sum.
8. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the payment of salaries of school district officials and agents, and

for the payment of statutory obligations of the district.

9. To see if the School District will consider action on the following resolution, "We the residents of Stratford School District find the State of New Hampshire to be negligent in the funding of Public Education, thus creating an undue burden on the local property tax payer. We demand that the State of New Hampshire Legislature begin in earnest to study methods for substantially increasing State aid to education."
10. To see what sum the District will vote to raise and appropriate to support with other school districts a court challenge to the constitutionality of New Hampshire's method of funding public education through near total reliance of local property taxes.
11. To transact any other business that may lawfully come before said meeting.

Charles Goulet, Chairman  
Wendy McMann  
Keith Fellows

November 29, 1989

To the Members of the School Board  
Stratford School District  
Stratford, New Hampshire

We have audited the general purpose financial statements of the Stratford School District, for the year ended June 30, 1989, and have issued our report thereon dated November 29, 1989. As part of our audit, we made a study and evaluation of the internal control systems, including applicable internal administrative controls, used in administering Federal financial assistance programs to the extent we considered necessary to evaluate the systems as required by generally accepted auditing standards, Government Auditing Standards, issued by the Comptroller General of the United States, the Single Audit Act of 1984, and the provisions of OMB Circular A-128, Audits of State and Local Governments. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements.

For the purpose of this report, we have classified the significant internal accounting and administrative controls used in administering Federal financial assistance programs in the following categories:

Accounting Controls

- Budgeting Cycle
- Payroll Cycle
- Expenditure (other than payroll) Cycle
- Data Processing Cycle
- Revenue Cycle
- Financial Reporting Cycle

Controls Used in Administering Federal Programs

General Requirements:

- Political Activity
- Davis-Bacon Act
- Civil Rights
- Cash Management
- Relocation Assistance and Real Property Acquisition
- Federal Financial Reports

Specific Requirements:

- Types of Services Allowed or Not Allowed
- Eligibility
- Matching, Level of Effort, or Earmarking

## Reporting Cost Allocation

The management of the School District is responsible for establishing and maintaining internal control systems used in administering Federal financial judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of internal control systems used in administering Federal financial assistance programs are to provide management with reasonable, but not absolute, assurance that, with respect to Federal financial assistance programs, resource use is consistent with laws, regulations, and policies; resources are safeguarded against waste, loss and misuse; and reliable data are obtained, maintained and fairly disclosed in reports.

Because of inherent limitations in any internal control structure or system of internal accounting and administrative controls used in administering Federal financial assistance programs, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the systems to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study included all of the applicable control categories listed in the first paragraph. During the year ended June 30, 1989, the Stratford School District had no major Federal financial assistance and expended 100% of its total Federal financial assistance under the following nonmajor Federal financial assistance programs:

### US Department of Agriculture

- Food Distribution

- Schools and Roads - Grants to States

- National Forest Reserve

- National School Lunch Program

### US Department of Education

- Vocational Education - Consumer and Homemaking Education

- Improving School Programs-State Block Grants (ECIA Chapt.2)

With respect to internal control systems used in administering these nonmajor Federal financial assistance programs, our study and evaluation included considering the types of errors and irregularities that could occur, determining the internal control procedures that should prevent or detect such errors and irregularities, determining whether the necessary procedures are prescribed and are being followed satisfactorily, and evaluating any weaknesses.

With respect to the internal control systems used solely in administering the other nonmajor Federal financial assistance programs of Stratford School District, our study and evaluation was limited to a preliminary review of the systems to obtain an understanding of the control environment and the flow of transactions through the accounting system. Our study and evaluation of the internal control systems used solely in administering these nonmajor federal financial assistance programs of the Stratford School District did not extend beyond this preliminary review phase.

Our study and evaluation was more limited than would be necessary to express an opinion on the internal control systems used in administering the Federal financial assistance programs of the Stratford School District. Accordingly, we do not express an opinion on the internal control systems used in administering the Federal financial assistance programs of the School District.

However, our study and evaluation and our audit disclosed no condition that we believe to be a material weakness in relation to a Federal financial assistance program.

This report is intended for the information of management and the applicable State and Federal agencies. This restriction is not intended to limit the distribution of this report, which, upon acceptance by the School District, is a matter of public record.

# EXPLANATION OF CHANGES IN PROPOSED 1990-91 BUDGET

- A Includes an additional aide position for this program.
- B Increased rates for professional services such as occupational therapy and vocational assessment specialist.
- C Estimated tuition costs for students in out of district placements.
- D Have taken out salary for the assistant principal.
- E Rate increase for services provided by the Indian Stream Professional Association.
- F Assistant principal's salary added to this line.
- G Tuition reimbursement for the principal.

## PRINCIPAL'S REPORT

Again, thank you for giving me the opportunity to serve as your principal. The 1989-90 school year has been an interesting and exhilarating experience for those connected with Stratford School. The addition of a middle school teacher has strengthened the middle school program while improving the course offerings at the high school level. The following improvements have been made to the high school curriculum: the offering of five levels of mathematics-including calculus and advanced math; the addition of band and music as course offerings; and the offering of additional electives such as accounting, world war II, psychology, sociology, and ancient history. Resulting from these changes, the librarian now services the library on a full-time capacity. The library contains over 5,000 print titles with access to over 2,500 nonprint (films, videos, etc.).

The above changes have made it possible for Stratford School to meet all the standards necessary for school approval at the high school level.

Several physical improvements have and/or will be made during the 1989-90 school year: elementary trophy case in main entrance; folding staircase in the attic; asbestos removal; safety wall padding in the gym (thank you, Booster's); additional library and classroom furniture.

Perhaps the most significant development of the 1989-90 school year is the contribution of the Parent-Teachers Association. The Stratford PTA was established in March, 1989 to bridge the gap between school and community for the betterment of the educational program. One hundred percent of the Stratford School Staff including faculty, paraprofessionals and support staff have joined the PTA, with the membership growing to over ninety people.

The PTA has organized several committees in order to promote parent and public involvement and to strengthen the educational program. Hopefully, the following programs will have a long-term positive effect on Stratford School's educational environment: Playground Committee - established to fund and develop a new, safe playground; Parent Volunteer Program - established to assist school staff and serve as a vital link between school and community; Adult Tutorial Program - established to assist community members with basic instruction, serving as a community service; Parent Newsletter - established to provide on going communication with parents and community as well as helpful hints in the areas of education and parenting.

Many schools have greater resources and perhaps more elaborate programs and facilities. However, our small school is able to provide students with the individual attention necessary for a meaningful educational experience. Beyond our regular course offerings, we are able to provide a well-rounded curriculum with full-time specialists in the area of art, music, library, guidance and physical education.

In order for the educational process to work well, students, parents and the community must work together with school personnel. When this occurs, every child's education will be improved.

Your help is needed to make Stratford School an excellent educational facility. If we can combine our ideas, talents and energies while keeping children and their future as our top priority, almost every goal is obtainable. Once again, your support, ideas and involvement is greatly appreciated.

Respectfully submitted,

John Graziano  
Principal

## RIGHTS OF PARENTS OR GUARDIANS

As the parent or guardian of a child who may require or who is receiving special education and/or related services, you have the following rights:

\*You have the right to have access to and examine all records relating to your child's education.

\*You have a right to receive prior written notice whenever the local educational agency proposes to begin or change the special educational referral, evaluation and/or educational placement of your child. You also have a right to give your written consent before initial special education placement and before any individual evaluation of your child.

\*You have a right to question any matter, decision or recommendation relating to your child's referral, evaluation or educational placement.

\*You have a right to request an independent educational evaluation obtained by the local educational agency. If your request is accepted, the evaluation will be conducted by a certified or licensed professional examiner who is independent of the local educational agency and will be performed at no cost to you. Should your request be denied, you have a right to appeal this decision as described below.

\*If you have any complaints regarding the referral, evaluation or educational placement of your child, you have a right to meet with the school board. If any agreement is unable to be reached, you have the right to an impartial hearing conducted by a state appointed due process hearing officer.

\*At this hearing, you have the right to be assisted by person-(person's) with special knowledge or training, or by an attorney, and the right to present evidence and confront, cross-examine and compel the attendance of witnesses.

\*After this hearing, you have the right to a written or electronic verbatim recording of such hearing. You have the right to obtain written findings of fact and decisions of the hearing at no cost.

\*If the decision of the impartial hearing at the local level is not acceptable to you, you have the right to appeal this decision to the State Board of Education or Civil Court.

\*During any of the hearings or appeal procedures your child shall remain in the current education program or, if applying for initial admission to the public school, shall be placed in a regular program until all proceedings have been completed, unless you and the school officials agree otherwise.

At 6th grade and above, school work is departmentalized so that no student's class is identified with any single teacher.

Title IX of the Education Amendments of 1972  
Public Law 92-318

Subpart A, Section 86.8 of Title IX requires public notification that the Stratford School District does not discriminate in their educational programs, activities or employment practices on the basis of race, language, sex, age or handicapping condition under the provisions of Title IV of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972; Section 504 of the Rehabilitation Act of 1973; and the Education of All Handicapped Children Act of 1975. The Stratford School District hereby notifies students, parents, employees, and residents that complaints and grievances for non-compliance with any of the provisions of Title IX are to be referred to:

Thomas J. Monahan  
Title IX Hearing Officer  
8 Preble Street  
Groveton, N.H. 03582  
Tel. 636-1437
